

Export Layout for Personal Property

Last updated: 06/25/2011

General Information

- ~ One file is exported.
- ~ Each record is delimited by a carriage return (x'0D') and line feed (x'0A').
- ~ All numeric fields are in a printable form, with commas and/or decimal places explicit.
- ~ If you need data in a different format than what is given, you may be able to use our custom export feature, or we can design one for you at our going rate.
- ~ Please feel free to make copies and distribute to other software organizations as needed.

notices.txt File

1612 bytes/record; the first byte is position "1." This is a fixed record length ASCII text file, with one record per parcel.

Field Name	Start	Size (decimals)	Comment
