

.NET Install – Workstation Post Server Setup

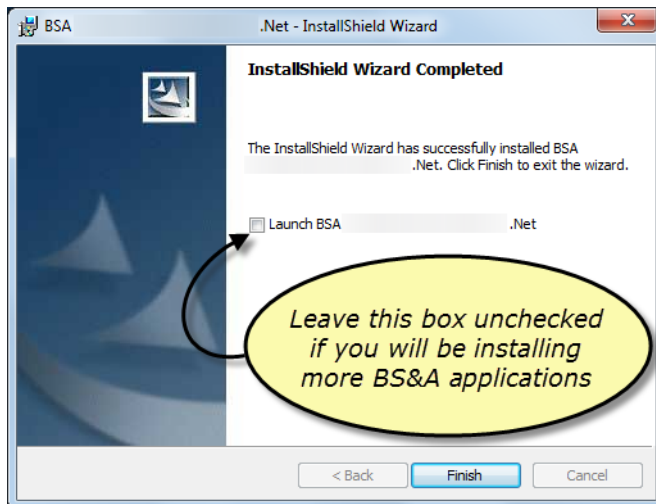

Questions? From your BS&A program, go to **Help>Contact Customer Support** and select **Request Support Phone Call** or **Email Support**. Or, you may call us at (855) 272-7638 and ask for the appropriate support department. Questions for our I.T. department may be submitted by phone (same number), or by emailing tech@bsasoftware.com.

Purpose: These instructions are intended for the person who needs to install the .NET program on a workstation in an environment where the server has already been installed and configured.

No CDs are required for this installation, but you must know the location of your **Shared Program Folder**:

- ~ If unsure, and if you are an Enterprise Administrator, you can find this in one of your BS&A programs by going to *Program Setup>Administration>Shared Program Folder*.
- ~ If unsure, and not an Enterprise Administrator, check with your IT department.

1. Browse to the Shared Program Folder on your network.
2. Double-click the folder for the BS&A program you are installing.
3. Double-click the .exe file containing the word "Setup". For example, the installation file for our Tax program is "EqTaxSetup.exe".
4. The "Welcome to the InstallShield Wizard for BSA [program name]" screen appears. Click .
5. The "Destination Folder" screen appears. Click .
6. The "Ready to Install the Program" screen appears. Click .
7. When the program is finished installing, you are presented with the "InstallShield Wizard Completed" screen:

8. Click .
9. If you will be installing additional programs, repeat beginning with step 3.
10. When finished installing, an "Equalizer .NET Applications" folder appears on the desktop. Open the folder to access your programs.
